**Contract Law**-Kenneth Yin
2020-10-28 Contract Law: Cases and Materials presents a selection of well-chosen cases and illuminating commentary ideal for introducing students to the study of contract law in Australia. Developed to accompany Stewart, Swain and Fairweather's Contract Law: Principles and Context, this casebook maintains the accessibility of the principles text while providing the depth and analysis of topics required to learn contract law. Following the structure of the principles text, this text explores areas not traditionally covered in other casebooks, such as resolving disputes, preparing to make a
contract, preliminary agreements, and interpreting contracts. Each chapter also briefly explores contracts in international contexts. Containing well-chosen, carefully curated cases and extracts, Contract Law: Cases and Materials takes a practical approach to student learning and integrates rich pedagogy to build critical thinking and analysis skills, making it an invaluable resource for contract law students.

**Text, Cases and Materials on Contract Law**-Richard Stone 2017-07-14 Written by leading authors in the field, this clear and highly accessible volume provides full coverage of the topics commonly found in the contract law syllabus, alongside up-to-date illustrative case examples and stimulating commentary. Composed of approximately one-quarter authors’ commentaries and three-quarters cases and materials, including academics’ articles and extracts from books and Law Commission papers, this book takes account of a variety of theoretical perspectives, including economic, relational and empirical conceptions of the law. This book facilitates the development of personal study skills and encourages readers to engage with the leading academic commentaries in the area. Features to support your learning include: ● chapter introductions to highlight the salient features under discussion and signpost topics to guide readers through this comprehensive text; ● additional reading listed at the end of each chapter to assist further study and independent research; ● clear and attractive text design that differentiates between the authors’ commentaries and the materials; ● a companion website that provides skills materials and self-assessment tasks to help further your learning. The range of material covered, straightforward style and targeted updates to this fourth edition make Text, Cases and Materials on Contract Law a comprehensive and invaluable resource for all undergraduate and
postgraduate students of contract law.

**An International Restatement of Contract Law**-Michael Joachim Bonell 2009-03-01

The Unidroit Principles of International Contracts, first published in 1994, have met with extraordinary success in the legal and business community worldwide. Prepared by a group of eminent experts from all major legal systems of the world, they provide a comprehensive set of rules for international commercial contracts. Available in more than 20 language versions, they are increasingly being used by national legislatures as a source of inspiration in law reform projects, by lawyers as guidelines in contract negotiations and by arbitrators as a legal basis for the settlement of disputes. In 2004 a new edition of the Unidroit Principles was approved, containing five new chapters and adaptations to take into account electronic contracting. This new edition of An International Restatement of Contract Law is the first comprehensive introduction to the Unidroit Principles 2004. In addition, it provides an extensive survey and analysis of the actual use of the Unidroit Principles in practice with special emphasis on the different ways in which they have been interpreted and applied by the courts and arbitral tribunals in the hundred or so cases reported worldwide. The book also contains the full text of the Preamble and the 180 articles of the Unidroit Principles 2004 in Chinese, English, French, German, Italian and Russian as well as the 1994 edition in Spanish. Published under the Transnational Publishers imprint.

This casebook is designed to meet the challenges of providing students with the most current and comprehensive analysis of modern contract law within the time constraints of the modern law school curricula. While the Seventh Edition includes the most current judicial and statutory developments, the enhanced use of problems interacting with text material allows students to gain a clear and sophisticated understanding of some of the more complex concepts in fewer classroom hours. Today’s student is asked to assimilate all of the basic concepts to which students in the past have been exposed as well as a host of new developments. To meet these challenges, this edition includes problems and questions surrounded by text.
referring to case law and other authorities in a fashion that allows the student to pursue preparation as well as the classroom experience in a highly productive fashion. Notwithstanding these innovations, the essential nature of the book has not changed. It is a casebook. New cases replacing cases in the prior edition demonstrate a high pedagogical value. The overriding purpose is to provide the student with the maximum opportunity to develop a comprehensive understanding of contract law in the 21st century that will be sufficient for long-term career success. Contract law will continue to evolve. It is important to provide the student with a vehicle promoting a sophisticated understanding of the subject in a fashion that will allow the student to assimilate future developments with justifiable confidence. Scottish Contract Law Essentials-Tikus Little
2016-09-28 The law of contract forms the basis of our civil society. Without the law of contract we could not buy food, clothing or a place to live, nor could we book holidays, run a business or manage a football club. But contract law is complex and intricate, and disputes over contracts have led to a wealth of court cases over the years. This updated third edition gives you a clear and concise guide to the basics of the law of contract as it pertains to Scotland, from what a contract is to how they are formed, terminated and breached, and from third-party rights to cross-border contracts.

product of the authors' rethinking of what a Federal Courts course can be. Although fully attentive to the deeper theoretical issues of federalism and separation of powers raised by the cases, the book also focuses on giving students the grounding they will need to be effective lawyer-litigators. The objective of the book is to provide students with the doctrinal, theoretical, and practical education that will enable them to identify and strategically employ jurisdictional tools to effectively serve their clients. Two major themes make Federal Courts: Cases and Materials on Judicial Federalism and the Lawyering Process distinctive among Federal Courts casebooks: • This book gives sustained and systematic attention to the role of state courts as a forum for litigation of federal issues. • This book is grounded in the realities of litigation today -- in particular, the strong tendency of defendants in civil litigation to prefer federal court over state court. The statutory device of removal, and other issues that dominate contemporary litigation, are addressed throughout this book. In addition, Federal Courts: Cases and Materials on Judicial Federalism and the Lawyering Process is organized in a way that facilitates learning and reinforces important points. A modular design enables teachers to select particular aspects of larger topics for made-to-order course coverage. Based on the authors' extensive classroom experience teaching Federal Courts, this book effectively integrates problems as teaching and learning tools. The problems have been carefully designed to require students to identify and apply relevant concepts from the governing law, including the cases in the book, from the perspective of a lawyer seeking to accomplish a particular goal. Many of the problems are based on recent appellate cases. Federal Courts: Cases and Materials on Judicial Federalism and the Lawyering Process provides thorough coverage of the public law issues that dominate scholarly writings on federal courts, but it is also uniquely geared to preparing
students to serve their clients effectively in more routine litigation matters. Significant revisions to the Third Edition include: • Extensive coverage of the important revisions to the law governing removal made by the Federal Courts Jurisdiction and Venue Clarification Act of 2011 (JVCA). • Introduction of aspects of removal jurisdiction not previously covered. • Seven new principal cases on topics ranging from qualified immunity to constitutional limits on non-Article III courts and state-court power to decline to hear federal claims. • New problems on a variety of topics, including justiciability, the Anti-Injunction Act, supervisory liability under §1983, jurisdiction-stripping, and the Rooker-Feldman doctrine.

Problems in Contract Law - Charles L. Knapp 2012 In Problems in Contract Law: Cases and Materials, Ninth Edition, by Charles L. Knapp, Nathan M. Crystal, and Harry G. Prince, a balance of traditional and contemporary cases reflect the development and complexity of contract law. Explanatory notes and text place classic and contemporary cases in their larger legal context, while questions and problem exercises bridge theory and practice. This successful book includes various perspectives and contractual settings, and offers a highly intelligent, contemporary treatment of contract law. It can easily be used in teaching by traditional case analysis, through problem-based instruction, or using theoretical inquiry. New to the Ninth Edition: Seven new cases that reflect advances in or improved statements of contract law Two restored cases (Kirksey v. Kirksey and Hill v. Jones) that provide valuable perspectives on fundamental areas of contract law Eight new problems (including seven net additions and one replacement) to provide more review options for students and to add contemporary fact patterns A new, two-color design featuring interesting photographs illustrating people and places discussed in some of the cases Editing of note and text material to reduce length without
Reorganization of text and comment material to focus comments primarily on historical developments, allowing professors flexibility in assigning or deleting comments. Student accessibility to deleted cases from prior editions through Connected Casebook, allowing professors the further flexibility of continuing to easily assign cases for which they have a particular preference. Professors and students will benefit from: A mixture of classic and contemporary cases. The authors' emphasis on accessibility of the material—rejecting a hide-the-ball approach. Review questions at the end of each chapter that are primarily designed for students to perform self-assessments of their grasp of the material. Answers with explanations are included in an appendix within the book.

**Cases and Materials on Remedies** - Doug Rendleman

1999

Concisely covers this complex subject matter with an emphasis on the lawyer's process. Decisions were picked and edited to build on first-year courses in contracts, torts, civil procedure, property, and constitutional law. Text also develops the differing measures of contract and tort damages and the availability of punitive damages for torts.

Tort Law and Alternatives - Marc A. Franklin 2006 Tort law remains a dynamic field, subject to constant refinement and rethinking. The new Eighth Edition reflects these evolving developments in recent case law and legislative activity, as well as commentary ranging from the ongoing Third Restatement of Torts (Physical Harm) project to the September 11th Victim Compensation Fund. The principal focus of this book is the law of negligence, strict liability, and no-fault as alternative approaches to compensating the victims of accidental harm and creating optimal incentives to safety. This leading casebook covers all major aspects of tort law with expertly edited cases, and original text. It also includes detailed discussions of liability, causation, defamation, privacy, damages,
insurance, and tort alternatives.

Cases and Materials on Contracts - Edward Allan Farnsworth 1988

Cases, Materials and Text on Property Law - Sjef van Erp 2012-07-23 This casebook presents a deep comparative analysis of property law systems in Europe (ie the law of immovables, movables and claims), offering signposts and stepping stones for the reader wishing to explore this fascinating area. The subject matter is explained with careful attention given to its history, foundations, thought-patterns, underlying principles and basic concepts. The casebook focuses on uncovering differences and similarities between Europe's major legal systems: French, German, Dutch and English law are examined, while Austrian and Belgian law are also touched upon. The book combines excerpts from primary source materials (case law and legislation) and from doctrine and soft law. In doing so it presents a faithful picture of the systems concerned. Separate chapters deal with the various types of property rights, their creation, transfer and destruction, with security rights (such as mortgages, pledges, retention of title) as well as with harmonising and unifying efforts at the EU and global level. Through the functional approach taken by the Ius Commune Casebooks this volume clearly demonstrates that traditional comparative insights no longer hold. The law of property used to be regarded as a product of historical developments and political ideology, which were considered to be almost set in stone and assumed to render any substantial form of harmonisation or approximation very unlikely. Even experienced comparative lawyers considered the divide between common law and civil law to be so deep that no common ground - so it was thought - could be found. However economic integration, in particular integration of financial markets and freedom of establishment, has led to
the integration of particular areas of property law such as mortgage law and enforceable security instruments (e.g. retention of title). This pressure towards integration has led comparative lawyers to refocus their interest from contract, tort and unjustified enrichment to property law and delve beneath its surface. This book reveals that today property law systems are closer to one another than previously assumed, that common ground can be found and that differences can be analysed in a new light to enable comparison and further the development of property law in Europe.

**Cases and Materials on Marine Insurance Law**
Susan Hodges 1999-03-25 This book provides a comprehensive collection of Cases and Materials On Marine Insurance Law. The sources included here are not always readily accessible. Each chapter is introduced with a brief resume of the general principles, before the...
facts of each case are summarised and the extracts of the relevant parts of judgments reproduced. The significance of the judicial extracts, the statutory materials and standard terms are then discussed with particular emphasis on important and problematical areas of the law. This book will be indispensable not only to postgraduate students of law, in-house lawyers, insurance brokers and claims adjusters, but also to students of maritime studies, legal practitioners and a wide range of professionals within the shipping industry who may wish to have at hand a convenient source of information. Whilst the book is a companion to the authors The Law of Marine Insurance, it is also structured to stand as a marine insurance text in its own right.

**Cases and Materials on Contracts as Basic Commercial Law**-Curtis R. Reitz 1975

**California Contract Law**-Craig A. Smith 2006 This casebook, written by a lawyer who has taught the contracts course in a California law school for twenty years, provides a convenient way for a contracts instructor to integrate California law into a general contracts course curriculum. Comprehensive in its scope, this book can be
used either as a stand-alone casebook or as a supplement to a principal casebook in a law school contracts course. It compares and contrasts the principles and rules of general contract law with the specific California statutes and case law in the field of contracts. The California appellate courts have long been a major influence on the field of substantive contract law, shaping the field of contracts beyond the state's borders. Primary sources of cases and statutes are tied together with concise, easy to understand explanations of the rules of contract law. Smith combines, in a single source, the leading California cases, specific California statutes, and sample legal forms, producing a valuable resource for practicing lawyers and paralegals as well as law students and paralegal students.

**Cases, Materials and Text on Contract Law**-Hugh Beale
2019-02-28 This is the third edition of the widely acclaimed and successful casebook on contract in the Ius Commune series, developed to be used throughout Europe and beyond by anyone who teaches, learns or practises law with a comparative or European perspective. The book contains leading cases, legislation and other materials from English, French and German law as the main representatives of the legal traditions within Europe, as well as EU legislation and case law and extracts from the Principles of European Contract Law. Comparisons are also made to other international restatements such as the Vienna Sales Convention, the UNIDROIT Principles of International Commercial Contracts, the Draft Common Frame of Reference and so on. Materials are chosen and ordered so as to foster comparative study, complemented with annotations and comparative overviews prepared by a multinational team. The third edition includes many new developments at the EU level (including the ill-fated proposal for a Common European Sales Law and further developments linked to the digital single market).
and in national laws, in particular the major reform of the French Code civil in 2016 and 2018, the UK's Consumer Rights Act 2015 and new cases. **Cases and Materials on the Law of Landlord and Tenant**-Albert Charles Jacobs 1932

**Contents of Commercial Contracts**-Paul S Davies 2020-07-23 Freedom of contract is a great strength of English law: indeed it is a key reason why English law is often the law of choice. But the terms of commercial contracts often restrict freedom of action. This book considers such terms. Leading commentators take stock of recent developments such as increased reliance on good faith/discretion and the rise of smart contracts. Insodoing, they make original contributions to ongoing debates concerning the limits to parties' freedom of contract. This important subject will interest drafters of commercial contracts keen to ensure that contracts are clear and enforceable; litigators disputing the meaning, scope and validity of terms; and academics interested in the purpose and nature of the exercises involved.

**Cases and Materials on Employment Law**-Richard Painter 2015-07-30 Cases and Materials on Employment Law is the complete reference resource for students of employment law. The most current sourcebook on the market, the 10th edition offers a wealth of well-chosen case law and stimulating extracts and materials to explain employment law in a
contextualized and thought-provoking manner. Discerning author notes and questions accompany each extract, providing valuable additional detail to further students' understanding and encourage them to engage critically with the material. Online Resource Centre This book is also accompanied by a free online resource centre (www.oxfordtextbooks.co.uk/orc/painter_holmes10e/) which includes an additional material on family rights, an extra chapter on health and safety at work as well as updates to the law and useful weblinks.

Cases and Materials for Introduction to the Study of Law- 1948

Cases and Materials on the Law of Corporate Reorganization-William Orville Douglas 1931

Cases and Materials on EU Private International Law- Stefania Bariatti 2011-04-13 Since the Amsterdam Treaty of 1997 empowered the EC to adopt rules in the field of conflicts of laws, legal instruments have been adopted that provide common rules on issues that touch upon the day-to-day life of European citizens. There are now instruments covering jurisdiction and the recognition and enforcement of judgments in civil and commercial matters, family matters and maintenance obligations, and the law applicable to contractual and non-contractual obligations, legal separations and divorces. There is also legislation establishing swift procedures for recovering claims abroad, ie the European Enforcement Order, the European Order for Payment Procedure and the European Small Claims Procedure, and legislation regulating cross-border insolvency proceedings and judicial assistance in the field of service of documents, taking of evidence and access to justice. This long list of EU legislation is not exhaustive of EU conflicts of laws rules: numerous further provisions are scattered among other EU legislation, eg directives on
consumer, labour and insurance contracts; company law; IP rights; securities; privacy; and so on. Besides this the European Court of Justice has issued many judgments addressing relevant aspects of the conflict of laws found in the acquis communautaire in this field. This book, which assembles all the relevant EU legislation and ECJ decisions in one place, provides a guide to the maze of legal instruments now in place, supplemented by brief commentaries identifying the leading principles and anticipating future developments.
